A Glossary of Centre for Medieval Studies MA/Level 1 Latin Examinations 1990-2013

by Morris Tichenor, University of Toronto

This glossary lists the root forms of all Latin words found in all CMS Level 1 Latin examinations dated 1990 to 2013 and should be used as an aid to self-study with those examinations. All words are listed according to the spellings found, if present, in Lewis & Short with the exception of the letter 'j' which has been normalized to 'i' in all cases; the letter 'u' is distinguished between its vowel 'u' and consonant 'v' forms. All variant spellings beyond those two exceptions are noted in parentheses, either within or following the root forms. Definitions are based on the actual use in the 192 passages glossed. However, it must be noted that several other definitions exist for each word, and this glossary only contains those meanings interpreted by myself for these specific passages. Next to each definition, a number - separated by a dash records the total number of times each definition is used. Definitions are separated by colons. Only non-periphrastic occurrences of the verb *sum* were counted. All proper nouns, adjectives and adverbs are appended at the end of the glossary and should be consulted as a guide to best practices, i.e. supplying the common English name of all well-known people and places and rendering personal names into the vernacular whenever possible. A list of the texts used in the exams appears at the end of the glossary and can be consulted to find additional readings, appropriate for Level 1 study.

List of abbreviations:

abl	ablative	gen	genitive	n	neuter
acc	accusative	impers	impersonal	num	numeral
adj	adjective	indec	indeclinable	prep	preposition
